730 year GLOBAL RESET

2020 – The Year of Emergence

Saturday 25th January 2020

@ Nerang on the Gold Coast

Yes my friends it doesn't get any bigger than this!

As the new 2020 decade opens our beautiful planet and her systems are at extreme 'tipping point' on every level.

The 'unconscious' material world view that has driven our world since the 1500s based on the abuse & corruption of financial & political systems is now due for reformation.

Jupiter in Sagittarius has brought the extreme dysfunctionality of the corrupt and broken systems to a head during 2019. So...what may the massive joint forces of Jupiter + Saturn + Pluto in Capricorn during 2020 have to say & do about this?

Personally, I am VERY excited about 2020 as a breath of fresh air is also on the way courtesy of Saturn opening his stint in Aquarius mid-year, then Jupiter joining him by December. We also have Venus in Gemini for 4 months enlightening 'the conversation', and the North Node also heading into Gemini for karmic evolution of our words and ideas.

It is imperative we move beyond the fear & confusion as old systems are collapsing and align our hearts & minds with the NEW CONSCIOUSNESS that is the destiny of our brand-new world currently emerging, loaded with fresh ideas & solutions & leaders that will take us forward!
