"It has always been my great good fortune to be inquisitive. From as early as I can remember I loved books about ancient cultures and their belief systems. In my teen years I was swept up in the revolutionary 60's and found a whole new set of ideas for my questing spirit. As I travelled widely in my early life I read of 'Brave New Worlds of Consciousness' and became fascinated by the question 'How do we

become conscious and what's in it for us to do this?' Simply put I have been seeking to learn how to live a conscious life ever since. Over the past 40 years my busy little mind has studied many subjects and sat with many teachers in my search for meaning and understanding of what is consciousness; why we humans are here on planet earth; and why we have created our current unfolding global crisis."

To answer these questions her latest book '**The 12 System - Why the World is Changing and What to do About It**' plus tools and techniques for change in the 4 parts of '**The 12 System Seminars**' can be found at [www.12systemseminars.com](http://www.12systemseminars.com)

'**The 12 System**' incorporates a wide range of **comparative philosophies, ideas and concepts to help you make sense of the revolutionary times currently unfolding on our 'small blue planet'**. By exploring the history, science and spiritual understanding of the Great Cosmic Cycles including the 2012 Mayan Calendar, you will learn why magnetic 'shifts' are changing our global consciousness. As our current world view is about to be radically altered this will empower you to step beyond fear into healthy objectivity, and **support you in making the transition from our current broken system into the exciting new potential of a more conscious world.**

## What People Are Saying

*"Maggie Kerr is one of the most insightful and talented people I have met. Her astounding knowledge of Astrology, Humanities and Mythology combine to weave an insightful, powerful and helpful story around ones' life. Maggie's humour, love and care shine through in all that she does. She is a leading light in the world of astrology and beyond."*

*"The wind that blew me away (and a few other people with it) has now become a zephyr - a sweet warm one! A rare experience to see your undoubted skill and understanding in action. What happened when you described it as astrology in action would have taken a psychiatrist about five years to reveal (not necessarily a psychologist) and then not so miraculously. Wasn't it fascinating! It gave me a sense of identity on a deeply personal level which I hadn't had before. I've always been so grateful for the skills which the cosmos gave me for handling the material universe. But about who I was, I was never certain. There is in Italy a phrase which expresses deep revelation, an expression of wonderment. All I can say is 'Mama Mia!'"*

*Margo Snape Sydney*

*"I have been a client, student and colleague of Maggie's for many years and I cannot speak too highly of Maggie and her work. As a teacher Maggie has the ability to bring astrology to life with her wonderful enthusiasm and to impart a great depth of understanding. As a counselor I have seen Maggie work miracles using her knowledge, empathy and sensitivity, and as an author her set of five books will set you towards gaining that same knowledge and understanding. As a speaker, where one is often very limited with time, Maggie's lectures are always packed with usable information and they are also fun."*

*Gillian Ayers Sydney*

*I first had the privilege of meeting Maggie Kerr about 5 years ago. It was a profound moment for myself as in Maggie I had found not only a very gifted and clever astrologer in which to learn from, but a person who walked her talk and was "real" not theorized text book - though she had the "goods" so to speak, but Maggie is relatable, understandable, deeply passionate about her craft and had the unique ability to connect with the true essence of an individual in a practical and grounded way. In short Maggie is Inspirational. I loved the fact that Maggie also incorporates a combination of Spirituality, Psychology, Personal Growth, along with great meaning and easy understanding to complex configurations. Maggie is one of a kind and I do not say this lightly. She is multi-skilled and talented. Her workshops that I have attended have been filled with revelation, enthusiasm, deep understanding and immense wisdom. I have not experienced all of the above from any teacher before! She is a true teacher for the Aquarian Age.*

*"I'd like to express my gratitude for such an empowering day and the successive epiphany's. These words are small in comparison to the light that now shines from my core. My feet have not touched the ground. It feels as though my head has been buzzing. I know how lucky I am to have experienced your teaching. Thank you."*

*Marie Cameron Lilyfield NSW*

*"I like to thank you again for your absolutely helpful insights, they really helped me to see some important things and support me in things I have sensed."*

*Igor Frühauf Vienna*

*"What a special lady you are. I loved the delicacy with which you coaxed me down to the depths and up to the heights...and unpicked and re-wove the tapestry of my psyche. I feel a big weight lifted off me and a joyful enthusiasm for this life, having been heard and validated and 'summarised' so that I may observe my journey thus far and know where I stand...amidst the chaos of past and future expectations and the now. I feel much more balanced and integrated now and really appreciate you sharing your instincts with me. You truly are masterful at your art. The ease, skill and seeming simplicity of your applied technique is a marvel I've admired since I got off the phone. 'Geez she's good' I chuckle to myself as I mull over your approach and execution. Thanks for containing a safe space for me emotionally. The way you thread your meaning and guide me to awareness is just superb craftsmanship. The way you fed back what you were hearing from me and tied it into patterns in my chart illuminated my consciousness with unity and it felt great to experience peace due to internal cohesion. I feel free to breathe again. Many thanks:)"*

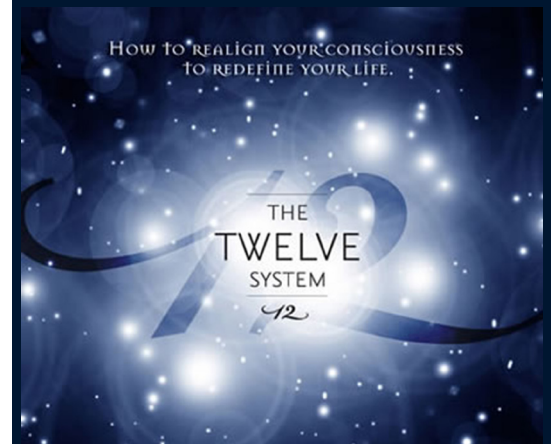

*Rebecca Hall Nowra NSW*

*I just wanted to take this opportunity to say a very big thank you to you for your offerings of incredible wisdom, divine support and kind hospitality. It has been a transformational process that I have benefited greatly from. Thank you so much again."*
